EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to an applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made in a subject of the application to place the claims in a condition for allowance:

Claims

In claim 1:

- line 2, inserted --to-- after "inks".
- line 3, inserted --includes-- after "and".

The above change was made clearer language and to place application in better condition for allowance.

REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

Claims 9-15 are allowed because the prior art references of record fail to suggest a device for storing and simultaneously refilling with different color inks to a cartridge of a color printhead comprising a container that includes at least three independent ink tanks, each tank associated with a feeding member to transfer the ink of each color to the cartridge when the container is in the operation position, the tanks being arranged concentrically in a central position in the container each of the tanks being suitable for containing a predetermined quantity of color ink, collected in a corresponding feeding compartment adjacent to a bottom wall of the container, and

Art Unit: 2861

each of the tanks extending in the direction of a top wall of the container forming a corresponding back-flow compartment, communicating freely with the corresponding feeding compartment below, the back-flow compartments being suitable for receiving the color inks, when the container is turned over on a side, or upside down, so that the feeding members emerge from the inks interrupting the feeding of the cartridge combination as claimed.

Citation of Pertinent Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. These prior art references (US Pat. 4,831,389; US Pat. 6,042,224; US Pat. 6,270,207; US Pat. 6,880,921; US Pat. 6,905,198) cited in the PTO 892 form show an ink supply system which is deemed to be relevant to the present invention. These references should be reviewed.

CONCLUSION

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Anh Vo whose telephone number is (571) 272-2262.
